

PART C

Parking Regulations Public Property

Section 301.³⁵

Section 302. Vehicles to be Parked Within Spaces on Highway and Not Beyond Paved Portion of Highway; Exception.

a. Whenever a parking space shall be marked on any highway for the parking of an individual vehicle, every vehicle there parked shall be parked within the lines marking such space, and there shall be no more than 1 vehicle parked within each marked space. It shall be unlawful to park a vehicle within the rights-of-way line of a highway beyond the paved portion thereof. Accordingly, no vehicle shall be parked (1) between the paved portion of a highway, whether curbed or not, and the sidewalk; (2) on or partly on the sidewalk; and (3) in any of such area off the paved portion when there is no sidewalk. The foregoing provisions shall not apply when Council, by special exception, shall have permitted parking between such paved portion and the right-of-way line, after having determined that such special exception is in the best interest of the Municipality.

b. Residents or property owners in the area along both sides of Easterly and Westerly Parkways (between Pugh and Oneida Streets) who want to maintain preexisting parking between the street and sidewalk within the extension of their property lines must apply for a Certificate of Exemption³⁷ from the Borough Zoning Officer. All applications for exemption must be made within 6 months following the effective date of this ordinance³⁹. Any resident or property owner failing to make such application in a timely manner will lose their exemption and will no longer be permitted to park in that portion of the public right-of-way located between the street and the sidewalk. All violations of this ordinance³⁹ will be subject to parking tickets, fines and other penalties duly prescribed and authorized by law.

The Zoning Officer shall review all applications for a Certificate of Exemption and shall make a determination as to the number and location of duly authorized, existing parking spaces which may be maintained, as exempted, after enactment of this ordinance⁴¹. Thereafter, there may not be any increase in the size or change in the location of parking area, except as provided for by special exception (in Section 302.a of this Chapter).

Certificates of Exemption shall be issued on forms prescribed by the Zoning Officer, and the determination as to whether or not to issue the Certificate shall be based upon the following:

- (1) The existing parking area must pre-date the enactment of this ordinance³⁹;
- (2) All spaces exempted must be within the extension of the property lines of the property eligible for exemption; and,

- (3) The parking area to be exempted must have been improved with paving material, crushed stone or other similar material prior to the effective date of enactment of this ordinance³⁹.

Any adverse determination for exemption made by the Zoning Officer may be appealed by the applicant to the Borough Council.

The Zoning Officer shall be required to notify, by first-class mail, all property owners and residents affected by enactment of this ordinance⁴¹. The notification shall include the notice and effective date of this ordinance³⁹ and the procedures and forms needed to obtain a Certificate of Exemption. Such notification shall be made within 1 month after enactment of this ordinance³⁹.

(Ordinance 1116, October 10, 1985, Section 302, as amended by Ordinance 1246, July 3, 1989, Section 2, and by Ordinance 1251, August 8, 1989.)
